

## PREMIAÇÕES

Titulo	Autor Apresentador	Premiação
<b>Trabalhos Orais</b>		
Accuracy of frozen section, imprint cytology and conventional paraffin exams of sub-nipple tissue during intraoperative and postoperative time to predict neoplastic nipple involvement in patients with breast carcinoma.	Natalie Rios Almeida	Prêmio Professor José Aristdemo Pinotti
Ionizing radiation as a risk factor for breast cancer incidence ? Goiânia 27 years after the accident with Cesium 137	Leonardo Bastos Lage	Prêmio Professor Carlos Inácio de Paula
Extract of a promising plant from Brazilian Cerrado vegetation for the treatment of murine breast cancer. (Patent pending)	Daniella de Souza Moreira	Prêmio Professor Claudio Kemp
Improved frozen section examination of the retro areolar margin for prediction of nipple involvement in breast cancer	José Roberto M. Piato	R\$ 1.000,00
EVALUATION OF AESTHETIC AND QUALITY OF LIFE RESULTS AFTER IMMEDIATE BREAST RECONSTRUCTION WITH ANATOMICAL FORM-STABLE IMPLANTS AND CONCOMITANT CONTRALATERAL SYMMETRIZATION	Cicero de Andrade Urban	Inscrição para Congresso Brasileiro de Mastologia
Claudin-4 expression in carcinoma in situ and its association with local recurrence, clinical and immunohistochemistry characteristics.	Giuliano Mendes Duarte	Inscrição para Congresso Brasileiro de Mastologia
The potencial prognostic role of tumor initiating cells, defined by CD44+/CD24-/low phenotype and ALDH expression, in breast carcinomas ? a Meta-analysis	Esther de Paiva Mota	Inscrição para a JPM
AXILLARY RELAPSE AFTER NEGATIVE SENTINEL BIOPSY IN PATIENTS WITH BREAST CANCER	Fabio F. O. Rodrigues	Inscrição para a JPM
Weekly evaluation of breast epithelium proliferative activity in women after three cycles of oral combined hormonal contraception	Rogério Fenile	Inscrição para a JPM
Use of magnetic resonance imaging for prediction of nipple involvement in breast cancer	José Roberto M. Piato	Inscrição para a JPM
Cytotoxic Effects Mediated by Photodynamic and Photothermal Therapies Combined Using Graphene Oxide Nanosheets as a Carrier of Methylene Blue on Treatment of Human Breast Cancer In Vitro	MAYARA SIMONELLY COSTA DOS SANTOS	Inscrição para a JPM
Perception of the forms of detection of breast cancer in a sample population of South and Southeast of Brazil	Afonso Celso Pinto Nazario	Inscrição para Congresso de Oncoplástica
Apoptosis Markers in Metastatic Breast Cancer	Graziele Silveira Fardin	Inscrição para Congresso de Oncoplástica
Effects of Pequi oil nanoemulsions on the morphology and proliferation pattern of breast cancer cells	Marina Carvalho Sampaio	Inscrição para Congresso de Oncoplástica
Citotoxic effects of nanoemulsions based on Buriti oil (Mauritia flexuosa) on human mammary cancer cells	Marina Carvalho Sampaio	Inscrição para GBCS 2016
<b>Os três melhores Pôsteres Comentados</b>		
Breast Cancer prevalence in patients younger than 50 years in Brazil and in the State of Goiás between 2010 and 2014	Nathália Dell Eugênio Costa	Inscrição para GBCS 2016
Predictive value of minimally invasive biopsies and sentinel node biopsy positivity in ductal carcinoma in situ	Afonso Celso Pinto Nazario	Inscrição para GBCS 2016
Effect of hypofractionated radiotherapy as a treatment of early stage breast cancer in relation to security	Teresa Raquel de Moraes Andrade	Inscrição para GBCS 2016
<b>O melhor Pôster</b>		
Bilobed flap with immediate nipple areolar reconstruction for central quadrantectomy ? an alternative to mastectomy in small breasts without ptosis	Elisa Sousa da Cunha Bastos	Inscrição para GBCS 2016
